June 1

Shoreline Stewardship

Dr. Carol Warden

Carol is a research scientist with the University of Wisconsin-Madison's Trout Lake Station, located in Vilas County. She maintains long term data for seven lakes that include parameters around water chemistry, fish populations, zooplankton populations, sedimentation rates, water levels, algae abundance, and ice cover duration. Carol received her master's degree in Water Resources Management at UW-Madison's Nelson Institute for Environmental Study. Prior to her work in freshwater, Carol served in the US Navy for five years aboard an aircraft carrier as a photographer. She spent her formative years in northeast Wisconsin, swimming, building forts, and riding bikes. Carol continues to enjoy the outdoors spending all her free time canoeing, skiing, ice skating, hiking, swimming, and paddle boarding.

UP State Parks: An Armchair Tour, MI DNR

Doug Rich

As the Western Upper Peninsula District Supervisor, I oversee the field operations for the Parks and Recreation Division from Shelter Bay in Alger County to Escanaba and all points west to the great state of Wisconsin and Lake Superior. I am based out of Baraga Michigan. I graduated from Central Michigan University where I received my BA in Parks and Recreation and Leisure Services Administration. I became, a park ranger, lead ranger, unit supervisor, department analyst and am now a district supervisor. I am starting my 32 nd season with the State of Michigan

August 3

Night Skies/Aurora Borealis, Milky Way and more....

Scott Pearson

I have been doing landscape photography in the Great Lakes region for the past 12 years with some of my images appearing in Lake Superior Magazine as well as various Wisconsin DNR and State Park calendars. I'm a self-taught photographer and enjoy photographing landscapes, nightscapes, waterfalls, macro, vintage, and maritime subjects. To view more of my photography, please visit my website: www.scottpearsonphotography.com

Kemp Research Station: Managing Natural Resources for the Future

Dr. Scott Bowe

Scott is a Professor of Wood Products in the Department of Forest and Wildlife Ecology at the University of Wisconsin-Madison. He earned his Ph.D. in Forest Products from Virginia Tech, a M.S. in Forest Products from the University of Minnesota, and a B.S. in Forest Science from the University of Wisconsin-Madison. Scott works closely with the wood products industry in Wisconsin and neighboring states. His current projects focus on forest products markets, wood manufacturing process improvement, and applications for hardwood vacuum drying; all strategies for remaining competitive within a global forest products marketplace. Scott and his family moved to northern Wisconsin in 2015 where he is serving as Director of Kemp Natural Resources Station, a research station in the College of Agricultural and Life Sciences dedicated to forestry and natural resources.

October 5

Birds---Birds---Birds

David Franzen

David Franzen's background: I retired from the U.S. Forest Service in 2001 and started photographing birds in our yard in 2004. I have seen 127 species in the yard and though it is always wonderful to add another species to the list, it is most fascinating to document their behavior. My presentation will be primarily pictures of bird behavior and photography tips and along with many others collected over time on my 6 acres in Phelps, WI.
